TUESDAY, MAY 3, 1864.

OUR CREDIT ABROAD.

Previous to the arrival of the last French packet it was generally believed by people who had no means of knowing to the contrary, that the credit of this country abroad was unbounded. Our colleagues copied out articles from the London, French, and Belgian papers, which concentrated in the most flattering terms upon the "wealth of our country," the Argentine Republic. Our adopted fellow-countrymen were positively persuaded by the newspapers into the belief that the eyes of all Europe were concentrated on them. New banks, new railways, new shops, new everything—in fact, there was no denying it, Buenos Ayres was becoming a place of the greatest importance; and in proof thereof, whenever our credit abroad was brought into question, the price of the Buenos Ayres bonds on the London Exchange was at once asked. This, as a matter of course, was regarded as a settler of the question.

When the redemption of the paper money became a question of importance in our Chambers, what was the difficulty which we had to contend with? Every capitalist in Europe wanted to lend us money, and as we could not take from every one, we decided to take no Loan at all.

Have our readers forgotten the opposition made last year to the passing of a bill in Congress enabling the Government to pay the interest and instalments on the Argentine debt in London? This bill was called and known as Article 28. Why was the opposition? Why was the article finally thrown out? Because Congress men had their eyes open. The capitalists in Europe thought we were all fools out here in America but the Senators and Deputies were not to be taken in. The people in Europe want to invest in our stocks: they want a good security for their money. Then let them send their capital out here. We are not like Brazil or the United States: our bonds are payable here, our interest here, and let the people in London look after their own.

Then again as to railway concessions, positively there was a person here when living in peace and quietness in Buenos Ayres was out of the question. Railway engineers, railway contractors, iron men, rail men, bolt men—why even the gas men had all poured upon Buenos Ayres, but our rulers were not caught sleeping. Concessions in other parts of the world might be bought and obtained by responsible parties for necessary improvements, but in the River Plate a concession was a very different thing.

Other countries were reduced to bankruptcy and pauperism, from the want of credit abroad, but we, in the terms, were going to ruin and destruction, from having too much of it.

Last Friday, however, the veil was lifted from our eyes, and it was currently reported through this city that our great credit abroad was all moonshine. Without believing in to this rather extraordinary intelligence, we think it right, as we hear so much said about this matter, to offer a few remarks.

To owe nothing at all, is often times as bad as to owe too much. The Argentine Republic to-day is not owned by England, and, in commercial words, the firm is not known in Europe B. Ayres, in this respect, has a slight advantage, inasmuch as she owes a good round sum in England, and pays her interest regularly. As a matter of course, when the Argentine National Government was spoken of in London, people began to make inquiry, and no person could find out anything about it. Now we certainly think that as the Argentine Central Railway was the first National enterprise introduced on the London Exchange, the Government should have taken care that it was well represented in that market, instead of which, if we are to believe report, every one to whom application was made for information respecting the National Government, gave most unfavourable reports, save those who were directly interested in the success of the new company.

President Mitre must, therefore, blame himself, or at least his talented Minister of Foreign Affairs, for the result.

We should be very sorry, indeed, to take one particle from the credit of Buenos Ayres, but it is right to observe that the statements of the Buenos Ayrean Bonds in London form no criterion whatsoever of the credit of the country, inasmuch as these bonds are all held up by one or two parties, and as there are none on the market, they naturally keep up.

But this is not at all delusions is to suppose that Buenos Ayres enjoys any especial credit in the London markets. So far from it, we deny that Buenos Ayres could raise a loan in England to-day, except at a serious shave. It may not be generally known, yet it is not the less a fact, that Governor Saavedra last year had applications made to some, London capitalists for a loan either to the Provincial Government or the Casa de Moneda, and the result was unfavourable.

Our credit abroad depends on our conduct at home, and sooner or later the people in this country will find it out. The news by the French packet, that the Chilian Government had paid and save us from a deal of useless argument, at this coming congress, on article 2.

NO MORE BURNING.

Such is the startling news we read in Sunday morning's "Tribuna." No more paper money is to be burnt; the Minister of Finance believes that it is a most stupid measure, and not calculated in the slightest to reduce the value of currency.

We confess that we were unprepared for this startling intelligence, since only the other day it was said that the Minister, having negotiated a loan with the merchants, would burn four millions of paper money in the first days of May.

The Minister of Finance seems to think that he has a discretionary power respecting the burning of the paper money. Now, we hold that he has not, and that the mission to burn the extra duties is a direct violation of the law, a breach of good faith, and an act most damaging to the credit of the country.

M. Gonzales, in offering his opinions as to the advisability of carrying out the law, assumes to himself a post which he has no right to. People do not want his opinions, but only ask him to comply with the law.

No wonder that in this country there is such a want of respect for the law, which is the great guarantee of public safety, when we find men in such exalted positions as M. Gonzales, the very Ministers violate them, and throw, with gratuitous audacity, give his reasons for so doing. The question is not one of a rather serious character: it involves the character of our public men, nay, even the integrity of the nation. If we are to abolish the burning, then why not also abolish the extra duties.

The following specious reasons offered by the Minister, for not burning the paper money, we take from our colleague, the "Tribuna." People may form various judgments of the matter, but to our eyes, an infinitely more nor less than a new plan to circulate more paper—

The Minister proposes as follows:

To totally suspend the burning of millions of paper on account of the last remaining, reserving to the Provincial Bank, public national funds along with the established amortisation to a value equal to the amount at present burned, and moreover, to add the value of the last emissions to be burned be 100,000,000 of paper money, in place of burning 400,000 as heretofore, the National Government shall deliver to the Bank 100,000,0 0 in public securities, with an interest of 6 per cent. per annum, and an amortisation of 1 per cent. per annum.

By these means two advantages are gained.

1st. It eases the national treasury of the burden of burning two millions monthly, or 12 per cent. of the produce of its rents.

2nd. It capitalises and guarantees for the bank the millions which, without the intervention of a store of paper, should have been burned.

The first advantage is self evident.

The second becomes more clear, on the following simple reflections:

The $10 millions paper say 4 millions of silver dollars, would serve as a guarantee for the 4 per cent. loan, which essentially requires the conversion of paper, besides producing a part of the immense interest of the Bolivian debt necessary, and which, by another method, would have to be deducted needlessly, from the resources of the bank.

AWKWARD PREDICAMENT.

On last Sunday the residents in this country had a rather painful proof of the utter insufficiency of our present legislative system. Gov. Saavedra attended the Provincial Chambers with the message set out and duly, to inaugurate the Provincial Chambers, but as by the terms of the Constitution a certain number of members is requisite to form what is called a quorum, the Governor was unable to open the chambers, in consequence of the required number not being present.

Our readers must be aware that there is at present a very serious split amongst our politicians, the Crudos or local party being considerably inferior in numbers to the Cocido or National party. To such a height has party spirit been carried that it is more than probable we shall now have no more Provincial Chambers—as the Cocido members seem determined not to attend. The result of all this will most probably be that Gov. Saavedra must resign, and as a matter

Press Prosecutions.

Paris, March 17.

The case of the journalists prosecuted for forwarding identical correspondence to provincial newspapers as such being considered as publishing a newspaper without authority, came on for judgment to-day.

The accused were found guilty on all the counts of the indictment. MM. St., Acheron, Clerbois, and Lamedon were each condemned to one month's imprisonment and 100 francs fine for the publication without authority of writings treating of political matters. It has also been ordered that their correspondence shall cease to appear.

LOCAL EVENTS.

Sor. Marmol—The "Tribus", says that on the 14th ult. Sor. Marmol was received at the palace of San Cristoval. The audience was private, according to the desire expressed by Sor. Marmol, who wished to avoid the grand state ceremonials, and be received as simply as possible. He was received by the Emperor in the most affable and amiable manner, and the audience lasted an hour.

King Cotton—We should be sorry to say anything in this country which might hurt the feelings of the unfortunate people who, believing that "there is nothing like leather," have turned their attention to trade curing; but we will not resist the temptation of laying before them the *first* that during the first ten months of the past year there have been imported into Great Britain from the States, Bra il, Egypt and other places 4,220,120 quintals of cotton, valued at the paltry sum of £37,687,000 sterling. If the present high prices be maintained, the year 1864 will require for the ordinary consumption of cotton in Great Britain, the sum of £68,000,000 sterling of the plant.

Brazilian Squadron—Vice Admiral Baron de Tamandaré has been appointed to the charge of the Brazilian squadron, soon expected in these waters He intended sailing from Rio de Janeiro the 23rd ult.

Look out!—Octavio Brizuela, Anchorena, Montecristo, Casares, Ochoa de Urquiza his once more his foot on his native heath, and his name is not yet fixed. In other words he is again at liberty.—"Reforma Pacifica."

Brazilian Special Mission—Councellor Don José Antonio Gaviria has been appointed by the Brazilian Government as special envoy to the Oriental Government. He takes as his secretary Dr. Aurelino Candido Tavares Bastos—"Tribuna."

An Argentine Black Swan—The "Tribuna" seems to be the recipient of most extraordinary epistles, for besides that mythical letter from the Paraguayan pretable foreigners, it has received one from Don Felix Pico (father of the Juez de paz) who says that his son the Juez de Paz del Monte is almost a saint. He *must* be a curiosity, a perfect *rara avis*, and it surely has been through some queer mistake that Don Felix Pico has been elected juez de paz, a post for which a man almost a saint is not at all suited.

San Juan and Mendoza—The Ferrocarril of Rosario says:—Sor. Sarmiento has retired from the Government, and Don Llovera has stepped into his post. The new Governor has named as his minister Don Domingo de Oro, and Don Benjamin Quiroga. Sor. Quiroga on the 5th ult. was about starting for the United States via Chile. The work at the mines is being continued with great activity. From Mendoza there is but little of interest. The minister, Don Augusto Gil, had sent in his resignation, and which was accepted, and Pedro Segura being named Governm nt Secretary General.

San Martin de los Arroyos—Don Juan Bder seems to be paying something like a fortune for his little game at the late elections at that place. Some time ago he was forbidden to have Don Nicolas until the suit commenced against him was settled, and now he has been deprived of his commission in the National Guards.

The Indians—Letters from Tandil state that on Thursday, 21st ult., a party of Indians, to the number of 400, had surprised the fort Resistencia, situated on the lagoon of Callihuincul, and had advanced three leagues further on, as far as Mentasti, killed Juan Rodriguez, and another person, and driven away the herds belonging to Mentasti, all in unknown how much cattle they have stolen, and also the number of people killed and taken prisoners.

Rosario—On the night of the 24th ult., all the prisoners escaped. It appears that they were only waiting for the departure of the 7th battalion, which left the same day, to take French leave of their kind guardians. The sentinel was almost killed, and all except the mutineers, belonging to the command of Prado, have escaped—"Nacional."

To the Tribuna—Our publishing a *paid for* advertisement of the Foreign Racing Society, is not quite so gross as the "Tribuna" charging that anybody in his senses believes that newspaper to have received a letter from *respectable* foreign merchants praising its conduct.

Paper Mill—The "Nacion Argentina" states that by the last French mail nows has come of a paper manufacturing company having been started, capital, £50,000. We have looked through all the papers that have come by last mail, and cannot find the slightest trace or sign of such an undertaking. As we, in common with the public, take a great interest in any such undertaking, would the "Nacion" be so good as to publish further particulars on the subject, such as the locality of the company and a list of its directors; such an act of kindness would merit the heartfelt thanks of all the Argentine provinces. Surely, it has seen the prospectus, else it could not state so exactly the number and value of the shares. Thanks, in anticipation.

The Su'aderos—Up to the present date the slaughtering in the saladeros has been—Montevideo, 176,000 head; Banda Oriental 102,500 do.; Entre Rios 174,200 do., Parana 50,000 do.; Buenos Ayres, 230,000 do.; Rio Grande 130,000 do. Total—863,300. In the same period of 1862-63 1,031,500. Diminution this year, 191,200.—"Progreso."

Concordia—The following is taken from the columns of the "Tribuna." Several individuals have been expelled from Salto: amongst them one called Mariano, who was said to spy for the Guerecinos, and who has come here to act the same part. On Saturday, at midnight (23rd ult.), the first officer of the Capitan of the Port, Don Emilio Thevenet, was attacked in a most murderous manner by a police agent, one of those spies, and a retained the care of looking after public order The said officer was on a visit to a friend, when the police soldier made his appearance, and insulted him in a gross manner with filthy words, calling him Unitarian savage, and aiming a blow at him with his sabre which the officer avoided. This passed within 30 varas of the Policia, and although 48 hours have elapsed since the attempt was made, the Chief of Police has not punished the assailant, who is now walking about in perfect liberty, carrying his arms, and we now expect to hear every moment that the police have committed some murders. How long are this rowdyism and confounded nuisance of espionage to last? For my part, my friend, I go armed from top to toe, and never leave my house after dark."

There was a very strong feeling on the Bolsa to-day at the outrageous programme of our new Finance Minister, there were not wanting persons who went so far as to charge his Excellency with speculating in ounces. Unfortunately as it is we deal with such wholesale repudiation every merchant in the city was taken by surprise: the unjustifiable scheme of the Finance Minister is simply "Robbery." Buenos Ayres to repudiate her part of the country or the most solemn obligations of her public men. To collect the extra duties and apply them to other purposes save by express ex pressly provided by law, is as nefarious an act as for the minister to put his hands into our pockets and take our purse; and yet with the most reprehensible effrontery the Finance Minister of the country (if we are to believe the Tribuna), publicly asserts that the burning of the paper money shall no longer be continued. Evil is the star which we see in the ascendant. Mr. Gonzales was made Minister of Finance, better far that the nation had no minis ter, and the Finances office were escaped up, than that the honor of a young and prosperous nation should be dragged down to the dust by the illustrious Gonzales.

If we speak rather hard respecting this young man, it is because we feel that levity of principle and inexperience are the most dangerous qualities of an Argentine Minister of Finance.

The immense advantages of *Accounts current* are now so generally felt, and appreciated in the 3 great emporiums of the River Plate—Montevideo—Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working class of that city a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages having hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a *reserve fund* in case of *need, sickness or old age*, the end of spending them in the immoral gambling, in lotteries and other rivolities.

The Bank will deliver to each depositor a Pass Book in which will be entered the amount deposited and withdrawn.

The depositor is permitted at *any time* to withdraw *the whole or part* of the sum deposited, in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the public by its beneficial influence from the causes of its operations which are regulated on the soundest and soundest principles and all are directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and to the neighbourhood.
